

5 ways of working with

1 Use our services

EOSC-hub services support research with Compute & Storage resources, Data Management tools, Processing & Analysis software and more.

Go to the EOSC-hub Marketplace:
[@marketplace.eosc-portal.eu](https://marketplace.eosc-portal.eu)

2 Join as provider

The EOSC-hub Marketplace welcomes new service providers willing to contribute new services and resources for researchers.

Apply via the webform:
[@eosc-portal.eu/join-provider](https://eosc-portal.eu/join-provider)

3 Training materials

EOSC-hub runs a training programme on EOSC-related topics, from data management issues to integration support.

Browse the Training Materials:
[@eosc-hub.eu/training-material](https://eosc-hub.eu/training-material)

4 Networking

EOSC-hub is open for partnership with additional stakeholders to reach and support new types of users and providers.

Contact us via:
[@contact@mailman.eosc-hub.eu](mailto:contact@mailman.eosc-hub.eu)

5 Digital Innovation Hub

The DIH is working closely with six business pilots to open the benefits of EOSC to private companies. New partnerships are welcome and we have a voucher scheme to support testing.

Express your interest: [@eosc-hub.eu/dih-form](https://eosc-hub.eu/dih-form)

EOSC-hub

About EOSC-hub

The **EOSC-hub** project brings together multiple service providers to create the Hub: a single contact point for European researchers and innovators to discover, access, use and reuse a broad spectrum of resources for advanced data-driven research.

For researchers, this will mean a broader access to services supporting their scientific discovery and collaboration across disciplinary and geographical boundaries.

The project mobilises providers from the EGI Federation, EUDAT CDI, INDIGO-DataCloud and other major European research infrastructures to deliver a common catalogue of research data, services and software for research.

Start: January 2018

End: December 2020
