

## JAM2.10 - Joint event programme – second issue

EOSC-hub and OpenAIRE-Advance

### Executive Summary

The communications and events team have successfully produced **eight** joint events and conferences, on top of the training events listed in JAM2.6

In particular the highlights have been:

- A continuous development around the theme of **national initiatives workshops** focusing on creating synergies around national nodes and implementation of EOSC at the national level
- DI4R in 2018 solidified the joint events team, paving the way for collaborative planning for future events
- A workshop series on Services for FAIR Data and enabling a focus on implementing aspects of FAIR within the services environment.

### 1. Context

The Collaboration Agreement between the EOSC-hub and OpenAIRE-Advance projects sets a range of activities to be undertaken for the benefit of the wider research community. As part of the Joint Work Plan, the two projects decided to pool efforts related to event participation and event organization, for the purposes of:

- Presenting a unified front to the consumers of EOSC-hub and OpenAIRE-Advance services to avoid fragmentation and lower the entry barriers for researchers.
- Optimising resources and increase efficiency.
- Generating synergies between the two consortia.

This milestone provides a brief overview of the events jointly organized during the first 18 months and outlines the events planned for the next 12 months of the collaboration. This milestone follows up [JAM2.8](#) and [JAM2.9](#).

## 2. Overview of joint events: M1-M18

Date / Place	Title	Type	No. Att's	Impact
9-11 October 2018 / Lisbon	<b>DI4R 2018 – Digital Infrastructures for Research 2018<sup>1</sup></b> <i>We jointly contributed to the logistics organization and programme development</i>	Conference	~400	The event provided a forum for communities to meet the e-infrastructure and research infrastructure service providers and further consolidate synergies among the relevant players in the research area. The Portuguese minister for Science attended the event providing the audience with a national perspective
11 October 2018 / DI4R 2018	<b>Building better collaborative national networks to support Open Science<sup>2</sup></b> <i>Joint workshop to work on synergies between the constituencies of both projects</i>	Workshop	~60	Creation of synergies around national nodes and implementation of EOSC at the national level
23 November 2018 / Vienna	<b>The EOSC Portal Launch Event<sup>3</sup></b> <i>We contributed with the organization of a demonstration booth and with the plan and implementation of Communication Activities (reported in JAM2.3)</i>	Formal event	300 policy makers and lead research communities	Official launch of EOSC and of the EOSC Portal. Promotion of the portal and onboarding of new users and service providers
4-6 December 2018 / ICT 2018, Vienna	<b>Joint booth at the ICT 2018 conference<sup>4</sup></b> <a href="#">[announcement]</a>	Booth	N/A	Promotion of the EOSC Portal and of the assets of the participating projects. Consolidation of synergies with FREYA & RDA Europe 4.0

<sup>4</sup> <https://ec.europa.eu/digital-single-market/en/events/ict-2018-imagine-digital-connect-europe>

4-6 December 2018 / ICT 2018, Vienna	<b>Joint session on national initiatives on open science in the EOSC</b>	Session	~20	Consolidation of synergies around national nodes and discussion on implementation of EOSC at the national level
12 April 2019 / EOSC-hub week, Prague	<b>Services to support FAIR data: From Theory to Implementation<sup>5</sup></b>	Workshop	~100	This has raised the profile of both projects in terms of expertise and as beacons of FAIR implementation. The turnout to both the first workshops was over 60 people and we expect more for the final workshop. An expert report has been authored which will feed directly into the <b>EOSC working groups</b> .
24 April 2019 / Linking Open Science in Austria, Vienna	<b>Services to support FAIR data: second workshop of the series<sup>6</sup></b>	Workshop	~60	
16-20 June 2019 / TNC19	<b>European Open Science Cloud (EOSC): It's a brave new world - creating and supporting digital communities</b>	Session	~60	Discussion around the EOSC priorities with the projects and initiatives implementing it.

### 3. Updated Events Plan

For the second half of the collaboration (July 2018-December 2019), we propose to focus on the following events:

Date / Place	Title
<i>First week of September 2019</i>	EOSC Coordination day: Jam session with all the EOSC-related progress to consolidate synergies and align workplans
<i>16-18 September / Porto</i>	Joint workshop at the Open Science FAIR: A Journey to EOSC: National Initiatives Services for FAIR Data – 3 <sup>rd</sup> Workshop
<i>22 October 2019 / Helsinki</i>	<i>EOSC event @ RDA</i>
<i>26-29 November 2019 / Budapest</i>	EOSC Symposium (The event building on and replacing the DI4R Conference series) Contribution to the EOSC WG discussions and consolidation of joint workplans with the other EOSC projects
<i>18-20 May / Karlsruhe</i>	Joint workshop at the EOSC-hub week
