

Staff Exchange

- **ENVRIplus call for staff exchange** is permanently open. The exchange can take the form of short stays in the RI, organized either on a **unilateral** (1 RI related person goes to another RI related organisation), **bilateral** (between two RI related persons), or on **trilateral** basis (involving 3 RI related institutes and 3 staff persons in total). The principal activity of the exchanged personnel during his/her stay at the RI should aim at cross-fertilization of ideas and experiences of RI related staff and promote knowledge transfer of new technologies, best practices, protocols, approaches and policies of RIs instead of data acquisition or fundamental research. Submitted proposals will individually be reviewed by the EB in a timely manner.
