

Curation requirements

Introduction

<Insert here a brief introduction to this topic>

<Introduction to the questions asked pertaining to general / pervasive requirements and setting the context of topic--specific requirements. Collation and integration of any pertinent properties and requirements that are consistent across all of the research infrastructures addressed by ENVRIplus requirements gathering.>

<insert here who is responsible for steering and editing this page. But they need to get their go-betweens to agree they have covered the points, e.g. for General requirements>

Keith Jeffery and his delegate with help from go-betweens and others he co--opts.

Overview and summary of curation requirements

<The overview and summary should be written (integrated and distilled) by the topic leader(s), highlighting commonalities and reporting significant variations. It should be refined and agreed by the go-betweens who contributed to this topic. In particular, they should check that critical points have not been missed and that a balance has been attained.>

Research Infrastructures

The following RIs contributed to developing curation requirements

<Delete from the following list any that were not able to contribute on this topic>

<Add an interest inducing sentence or two, to persuade readers to look at the contribution by a particular RI. e.g., What aspect of the summary of requirements, or the special cases, came from this RI. Check with RIs that they feel they are correctly presented.>

ACTRIS: *<e.g., This RI ... and therefore has XYZ <Topic> requirements, with a particular emphasis on ...>*
