

Identification and citation in ICOS

Context of identification and citation in ICOS

Complete report on Identification and Citation in ICOS available at: <https://envriplus.manageprojects.com/projects/requirements/notebooks/470/pages/60>

Summary of ICOS requirements for identification and citation

ICOS will implement the allocation of unique persistent identifiers to all data objects that should be referable, both in the ICOS-internal work flows and to end users of ICOS data products. Since much of ICOS data will be dynamic in nature, the RI is interested in implementing a system for data citation that allows for versioning, as outlined by the Research Data Alliance WG on Data Citation.

Detailed requirements

The detailed RI response to this part of the requirements questionnaire is attached: [ICOS - 1 - Identification and citation 2016-01-27.docx](#)

Formalities (who & when)

| | |
|--|--------------------------------|
| Go-between | Alex vermeulen |
| RI representative | Maggie Hellström |
| Period of requirements collection | September 2015 - December 2015 |
| Status | Finished |
